

RAG Evaluation Test Document

This document is designed as a small, self-contained knowledge base for testing OCR → chunking → embedding → retrieval → generation → evaluation pipelines.

1. Company Profile

NovaTech Solutions is a fictional software company founded in 2018. Its headquarters are in Bengaluru, India. The company develops workflow automation software for small and medium-sized businesses. NovaTech has approximately 240 employees and operates offices in Bengaluru, Pune, and Hyderabad.

2. Product Information

NovaFlow is NovaTech's workflow automation platform. It was launched in 2022. NovaFlow provides task automation, approval workflows, document processing, and analytics. The Professional plan supports up to 50 active workflows per workspace, while the Enterprise plan supports unlimited active workflows.

3. Pricing

The Starter plan costs ■799 per user per month. The Professional plan costs ■1,499 per user per month. Enterprise pricing is customized according to the organization's requirements. Annual subscriptions receive a 15% discount compared with the equivalent monthly subscription cost.

4. Support Policy

Starter customers receive email support during business hours. Professional customers receive email and priority chat support. Enterprise customers receive 24/7 support and a dedicated account manager. Standard support requests are targeted for a response within one business day.

5. Security

NovaFlow encrypts customer data in transit using TLS 1.3 and encrypts stored data using AES-256. Multi-factor authentication is available for Professional and Enterprise customers. Customer backups are retained for 30 days.

6. Data Processing

NovaFlow's document processing module can extract text from PDFs and scanned documents using OCR. The system supports English and Hindi OCR. For best results, scanned documents should have a minimum resolution of 200 DPI. Documents larger than 25 MB must be compressed before upload.

7. Evaluation Facts

For a RAG evaluation system, the following facts should be retrievable: NovaTech was founded in 2018; its headquarters are in Bengaluru; NovaFlow launched in 2022; Professional supports 50 active workflows; Starter costs ■799 per user per month; annual subscriptions have a 15% discount; AES-256 is used for stored data; backups are retained for 30 days; Hindi OCR is supported; and scanned documents should be at least 200 DPI for best OCR results.

Suggested Evaluation Questions

ID	Question	Expected answer
Q1	When was NovaTech Solutions founded?	2018
Q2	Where is NovaTech headquartered?	Bengaluru, India
Q3	When was NovaFlow launched?	2022
Q4	How many active workflows does Professional support?	Up to 50
Q5	What is the Starter plan price?	■799/user/month
Q6	What discount is offered for annual subscriptions?	15%
Q7	Which encryption is used for stored data?	AES-256
Q8	How long are backups retained?	30 days
Q9	Does the OCR module support Hindi?	Yes
Q10	What minimum scan resolution is recommended?	200 DPI
Q11	How many employees does NovaTech have?	Approximately 240
Q12	What happens to documents larger than 25 MB?	They must be compressed before upload

Note: The questions intentionally include both direct fact retrieval and details that require combining information from different sections. Use the expected-answer column as a lightweight ground-truth set for evaluating retrieval and generation.
